

Meet Reggie

Reggie is a 5 month old Labrador Retriever. He was born on February 8th and has 9 brothers and sisters.

His Mum and Dad are both black Labradors and so are 8 of his brothers and sisters. Reggie and one of his sisters are both golden and look like their Grandad who was a fox red Labrador.

Reggie's Mum

Reggie came to live with us when he was 8 weeks old and has become a much loved member of our family. He is very friendly and playful and wags his tail a lot.

He loves playing games and particularly likes having his tummy tickled. As with most Labradors he loves his food and manages to eat his meals in about 10 seconds! Some of his favourite things are cheese, watermelon and apples.

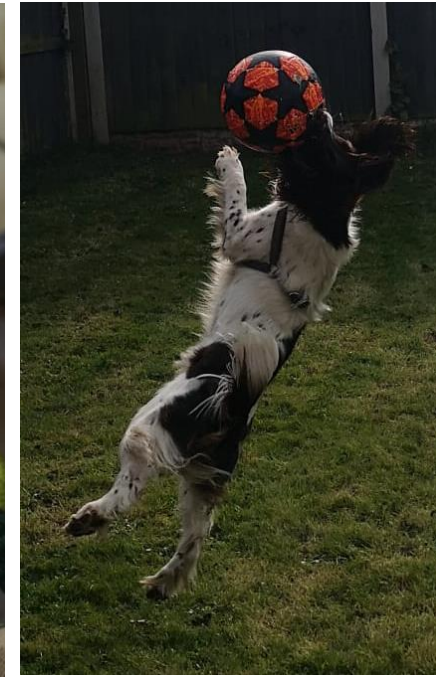

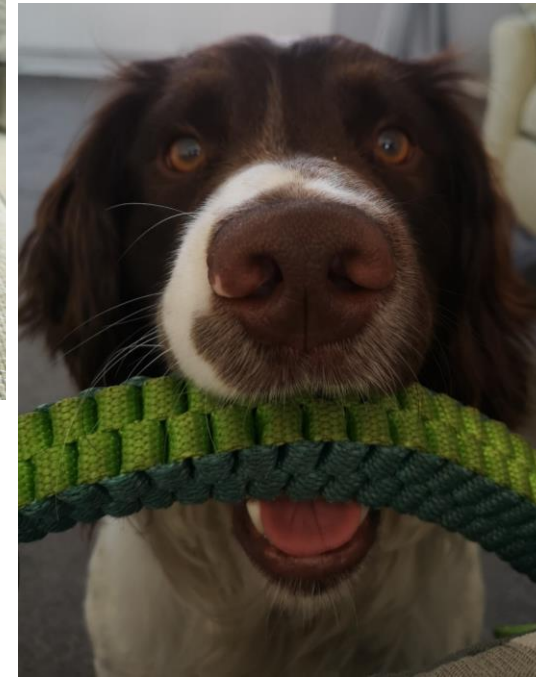

..... and Frankie

Frankie is a 2 year old brown and white male Springer Spaniel who has lots of energy and loves children.

He likes being stroked and having lots of time to play. His favourite thing to do is playing fetch, which is a big characteristic of a Springer Spaniel and he will play for hours!

He is very obedient and loves receiving treats when he is good. Frankie and Reggie are currently having training sessions and learning lots of new things.
